

DORMAN F-150 EPS RACK

601-900

Ford F-150 2014-11

THE IDEAL SOLUTION FOR SAVING TIME AND MONEY.

Stop sending customers to the dealer for a new electronic power steering rack, or to get a remanufactured one programmed. This newly manufactured OE FIX replacement for more than 2 million Ford F-150s across North America is now the premier solution for this repair. It features an improved seal design to prevent water intrusion that causes steering resistance, and includes a proprietary programming tool that makes it easy to install and setup.

FREE Programmer Included

Saves time – included, exclusive, free programming tool means no OE programming or calibration capture required

Saves money – less expensive than original equipment, and free programmer eliminates OE programming fee

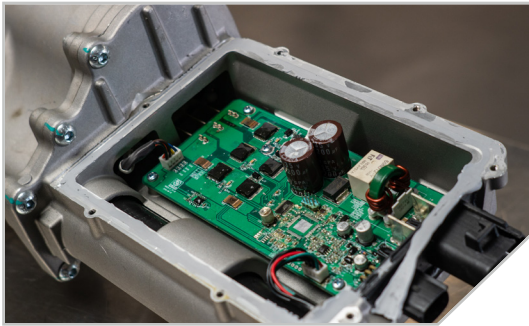

Reliably engineered – validated to Federal Motor Vehicle Safety Standards and approved at third-party testing facility

Limited lifetime warranty

DORMAN F-150 EPS RACK

UPGRADED FEATURES, EASY TO INSTALL & READILY AVAILABLE

601-900 Ford F-150 2014-11

Coated electronics to prevent water intrusion and corrosion

“This one-step programming module will be a life-saver for most techs.”

Dave Stricker, ASE Certified Technician
Godshall's Auto Service, Hatfield, PA

Included programmer saves OE programming fee - an estimated \$130 savings

Redesigned gear protection to reduce road debris contamination that causes internal steering resistance

100% new construction, eliminating availability issues with remanufactured products, or need to return and rebuild
