

# CRANKCASE VENTILATION FILTER

Filters Crankcase Gases Before Re-entering Into Intake System  
**Coverage for today's most in-demand trucks**

**904-7902**

Cummins ISC & ISL Series Engines 2015-08

**OE Numbers:** 5263190, CV50628

Constructed of high-quality materials for oil and heat resistance, our Crankcase filter removes oil vapor from crankcase gases and restores drivability.

- Direct replacement for a proper fit every time
- Constructed of high quality materials for resistance to oil and heat
- Quick disconnect fittings
- Replacement helps you pass state inspection

#### **FAILURE MODE:**

- Filter becomes saturated with oil, eventually pushing oil back into intake
- Oil leaks from vent valve or intercooler saturated with oil
