3.6L;

Chrysler 200/300, Town and Country 2013-11; Dodge Avenger, Challenger, Charger, Durango, Grand Caravan, Journey 2013-11; Jeep Grand Cherokee, Wrangler 2013-11; Ram 1500, C/V 2013-12

DORMAN OE FIX SOLUTION

OE PROBLEM:

The original valve becomes brittle and typically breaks when servicing the oil filter. The dealer requires replacing the entire filter housing.

We offer the valve separately, so when the original part fails, you only have to replace the valve.

90% Cost Savings

3+ Hour Install Savings
