

DORMAN DIESEL FUEL INJECTORS

**COMPLETELY
REMANUFACTURED
IN THE USA TO
PRECISE TOLERANCES.**

When a diesel fuel injector fails, you need to know you can count on its replacement. Dorman remanufactures each of its diesel injectors at its own dedicated facility in the United States to ensure performance and reliability.

**ONE YEAR
UNLIMITED
MILE
WARRANTY**

Disassembled and cleaned - each fuel injector is completely disassembled and cleaned as a unit, keeping all components together for measurement

Measurements confirmed - cleaned components are inspected and measured to verify dimensional tolerance for leak-free performance

Professionally reassembled - injectors are rebuilt using 100% new seals as well as other new components as needed

Performance validated - reassembled injectors are tested by serial number and data is recorded at critical engine checkpoints
