EXTENDED LIFE CHASSIS PARTS

Make Way for the New Standard

Extended Life Technology (XL): Dorman utilizes XL technology to meet the exacting performance requirements on today's most popular SKUs; each denoted by an "XL" suffix on the part number

- Maintain a vehicle's original steering and handling without adding resistance to the steering or suspension systems
- Highest quality components designed for ease of installation while restoring vehicle to like-new condition
- Application specific maintenance free or greasable designs

We optimize every component

Premium Advantages

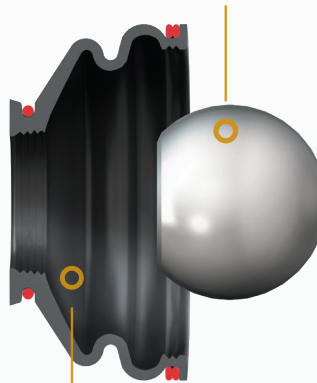

Exclusive
ArmourGrade™ Studs

ArmourGrade coating provides corrosion resistance against harsh environments

Exclusive
EverSmooth™ Ball Finish

EverSmooth Finish reduces the amount of torque required move the stud and contributes to increased durability

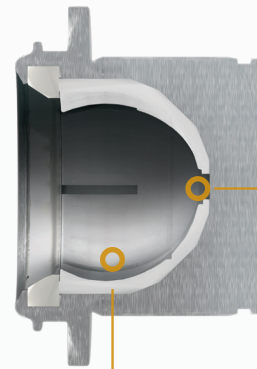

Performance Rated Boot

Tested to ensure prevention from contaminants

Exclusive
UltraFlow™ Normalized Forged Housing

UltraFlow Housing insures small material grain size and maximizes part durability

Exclusive
I.C.E.™ Grease

High quality lithium-based grease delivers better lubrication characteristics than conventional aftermarket grease; under a wider range of operating temperatures
