### DORMAN OE FIX SOLUTION

#### OE PROBLEM:

Corrosion with original tubular design leads to ends splitting and eventual breaking.

Our solid forged design eliminated possibility of ends splitting or breaking

- > Direct replacement for a proper fit every time
- > Dorman-improved with high quality materials and a strong finish to resist corrosion in center or at ends of bar
- > Comes with end links and polyurethane bushings (where applicable)
- > A rigorous quality inspection has been undertaken to ensure that this part conforms to product standards

Think It's Dealer Only? **Check Dorman First!**
