

WHEEL LUG NUTS

Save Time and Effort on Replacement Wheel Lug Nuts

611-008

Ford 2018-15, Lincoln 2017-15

- Available in multiple styles and finishes to match the original and blend in with the overall aesthetic of the vehicle
- Available in different quantities and packaging options
- Quality tested to meet strict engineering standards

FAILURE MODE:

- Results in making it impossible to use a stock lug wrench to remove the lug nuts for servicing the wheel.

DORMAN OE FIX SOLUTION

OE PROBLEM:

Rust builds up inside the stainless steel cap, causing it to fall off or swell.

Constructed of durable carbon steel instead of stainless steel for superior corrosion resistance and a longer service life.
