

Differences between 22-203A, T and F

Application

Ford Foxbody Applications; Mustang, Thunderbird Mercury Cougar, Mercury Capri.

Question

What is the difference between part number 22-203A, T and F?

Answer

22-203F - Ford gear with an all aluminum housing with one piece mounting bushings and integral metal sleeve.

22-203T - TRW gear with a two piece aluminum and steel housing. 2" input shaft. 2 piece mounting bushings. The vehicle will use mounting bolts instead of mounting studs.

22-203A - TRW Gear with a one piece all aluminum housing. 2 1/4" input shaft. 2 piece mounting bushings. The vehicle will use mounting bolts or studs.
